Oceanic is a fabric born of the SEAQUAL INITIATIVE designed to combat marine plastic pollution and achieve a waste free environment.

It is created entirely from post-consumer recycled plastic - from plastic debris floating in our seas, used to make SEAQUAL® YARN, to bottles thrown away and destined for landfills.

Revolutionary by Camira is a breakthrough in textile circularity. The first fabric to be produced using Camira's advanced textile recycling capability, it uses waste wool yarn from our own manufacturing processes.

Closing the loop and opening the door to a new era of sustainability, this pioneering product is available in 10 colorways, created using the original coloration of the recycled woollen fibres.
