### Table Specifications

#### Table Frame

Table frame is made of formed and welded 14 gauge steel 0.75" x 1.5" rectangular steel tubing with welded metal brackets for attaching tops. Frames are sandblasted and finished in your choice of standard powder coat colors. Product shipped completely assembled and ready for use.

#### Glides

Four factory installed polyvinyl glides.

### Base Finish Options

**Metal Finish:** Standard Powder Coat

### Freight On Us

We make it easy to get your pieces where they need to go. Orders over \$7,000 list ship free - no extra freight fees and no surprises. For orders \$6,999 and under, a simple flat rate of \$195 will be applied.

### Sustainability, Built In

We believe better design starts with better materials - and that true quality means making things that last. Because carefreely doesn't mean carelessly, it means caring enough to build responsibly, for people and the planet. Learn more and see current certifications here >>

### Lifetime Warranty

Built to last. Backed for life. That's Carefreely - our promise that every piece is made with lasting quality, with a support team that always has your back. If something needs fixing, we're here to repair or replace - whatever it takes to keep your space working beautifully.

### Table Top Finish Options

#### Laminate

Laminate tops are 1.25" thick, finished with high pressure laminate. We'll source your selection for any project, because life is too short to limit options here. Standard or otherwise, grading in any premiums. Want the field narrowed in? Check out page 3 to view our standard palette that matches the 3MM edge options we stock.

#### FENIX®

A high-design surface material with a low-sheen aesthetic. Sleek, ultra-matte, soft-touch and naturally fingerprint resistant; it's equally satisfying to look at as it is easy to live with. We stock a core palette of 8 colors, but happy to chase a custom color if your project calls for it.

#### Wood Veneer

Real wood, real character. We select our standard Rift Cut White Oak veneer for it's warm, natural appearance and distinctive grain. No sameness here - each piece shows variation in color and grain, highlighting the authenticity of real wood. Our transparent stains preserve the grain's depth and a zero-sheen top coat creates a smooth natural matte finish.

#### Other

Looking for a custom material? Connect with our quoting team via sales@erginternational.com so we can look into options. If it's a specific stone or solid surface, we'll need the exact pattern and quantity of tables to get an accurate quote - none are priced the same!

### Option Code Breakdown

**CODE: FX1** FENIX® Surface Material (tops up to 24x60")
